

## Climax Emergency Pendant WTRS2 Wins 2017 Red Dot Award for Product Design

Taipei, Taiwan—August 8, 2017— Climax Technology, a leading provider of smart home security and telecare solutions, announced that its Emergency Pendant WTRS2 was awarded the Red Dot, the international distinction for ground-breaking design, and high design quality.

The SmartLife Care Flex handheld transmitter, internal model name WTRS2, is a stylish emergency pendant that triggers an emergency call at the touch of a button; with patented one-click necklace to wristband switch, allowing users to easily switch between wearing a necklace or as a wristband, all without hassle. The WTRS2 comes in multiple colorful patterns and designs, allowing users to stay stylish and feel safe knowing help is merely a button press away.

“We are honored to have been awarded and recognized by the Red Dot Awards, said Michael Chang, Climax President. “We have invested much effort in designing products not only with superior quality and performance, also elegant, stylish, ergonomic design. We designed WTRS2 to complement our medical alarm systems to help families stay healthy, safe, and comfortable.”

“The SmartLife Care Flex handheld transmitter surprises with its many fashionable designs, which make it appear like a piece of jewellery, thus encouraging greater acceptance in the wearer.” Statement by the Red Dot jury.

Founded in 1954, the Red Dot Award: Product Design competition appraises the best products of the year from all over the world. Honoring a select group of products out of the thousands entered each year, Red Dot winners are chosen by a panel of independent designers who seeks to find products that significantly stand out for having exceptional design, according to criteria such as degree of innovation, formal quality, functionality and ecological compatibility. In total, the competition received more than 5,500 entries from 54 countries in the 2017 competition.

### About Climax

Climax is a security, telecare, and smart home complete-solutions provider that integrate wireless security, senior care, home automation, energy management, emergency monitoring, and live visual monitoring into innovative all-in-one solutions. For over three decades, Climax has applied its expertise in telecommunications and wireless radio frequency (RF) technologies to develop security features, such as world-leading 2-km RF range, VOIP, and reliable communications, into our security, senior care, and smart home solutions. Our company has relentlessly pursued perfection in technology, production, value and service with the objective of providing the best protection and care for every home and individual.
