RC-16
Remote Controller

Seamless Protection

- **Lightweight, convenient keychain design**
- **Front sliding cover prevents unintended usage**
- **Four buttons: Arm / Disarm/ Home / Panic**

RC-16 Remote Controller offers users the convenience of controlling their alarm system from a distance away, before entering the home or after exiting. Use the RC-16 to easily arm, disarm, and home arm your alarm system at your fingertipes. During an emergency situation, users can also activate the Panic Alert button with a simple press.

Front sliding cover design prevents unintended operation. Functionality and peace of mind all packaged into a compact, lightweight remote control.

RC-16 wireless keyfob is designed to fit on a key chain in a pocket or purse, or on the bedside table -- anywhere users would like instant wireless control of their alarm system.
